SOFTWARE
THAT WORKS
HARD

Like the name suggests, bMate is your friend and partner in business. Taking the stress and hurdles in your routine, it simplifies your life, adding ease to your daily business and professional routine, automating cumbersome tasks and accelerating profitability.

Whether yours is a small, medium or large business establishment bMate can transform the work scenario for you. With applications developed for a wide range of business categories, bMate comes pre-equipped with the skills and expertise to catapult your business and take it to soaring heights.

bMate has been painstakingly developed by our engineers for a large gamut of business and professional ventures, including tailor-made packages for pharmacies, hypermarkets, wholesale and retail outlets, manufacturing units, fuel stations, cafeterias and restaurants.

All packages can be further customized to suit individual specific needs. We understand that ultimately how far you take your business depends on how well you handle it. With bMate you can handle IT perfectly well.

Distributors | Hyper Markets | Super Markets | Groceries Departmental Stores | Vegetable & Fruit Vendors

- Effective Inventory Management
- Daily Sales Reports, Item movement reports with Tax reports
- Sales Return/Credit Note
- Option to create schemes such as "Buy One get One Free"

In today's fast paced and technologically advanced world, automation becomes imperative. Get updated or get outdated – becomes the new mantra.

We at SAARA IT SOLUTIONS strongly believe that it's not more about what technology can do for you but rather, it's what you can do with IT.

This has always been our core ideal. At SAARA IT SOLUTIONS we realize that you need to eliminate time consuming, cumbersome and complicated mundane tasks so that you can concentrate more quality time on improving workflow, efficient management processes and enhance productivity. After all, enhanced productivity always translates into escalated profitability, which is what you want.
